

The 2020 Arizona Teacher Workforce By County

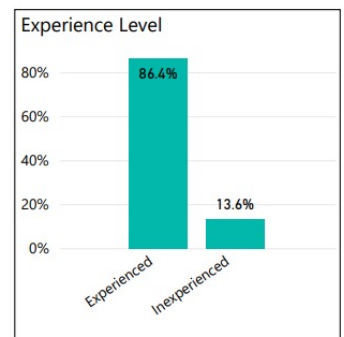

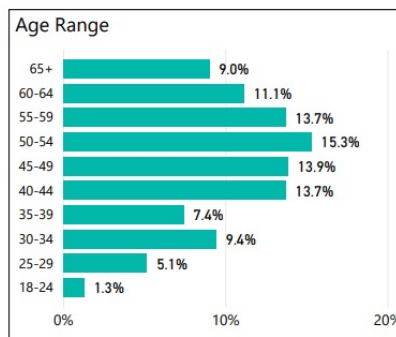

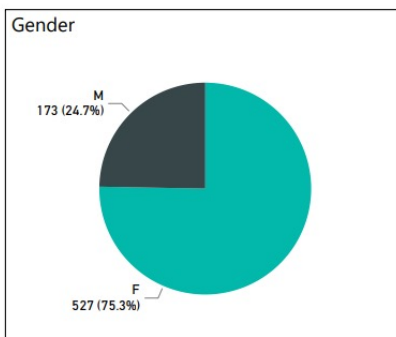

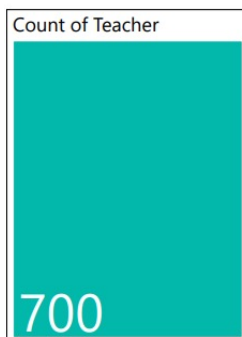

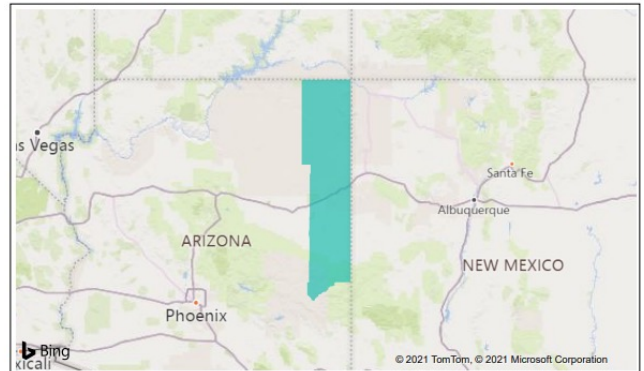

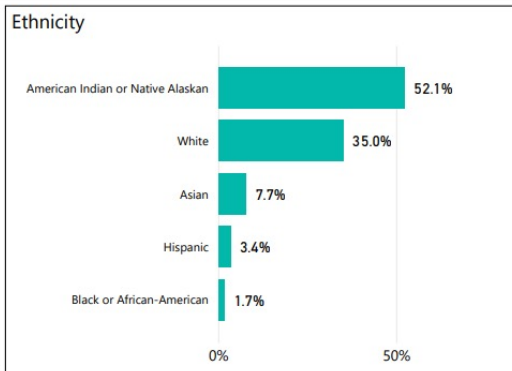

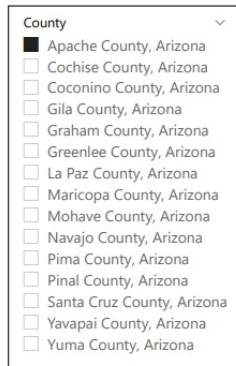

JULY 2021

Report Authors: Ashley Bennett, Luis Silva, Joe O'Reilly, Edith Gummer, & Bruce Duplanty

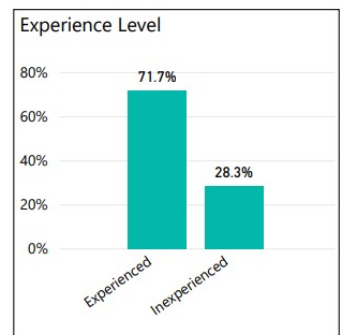

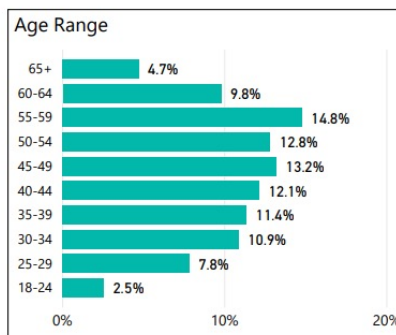

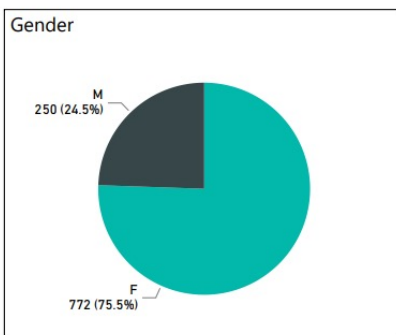

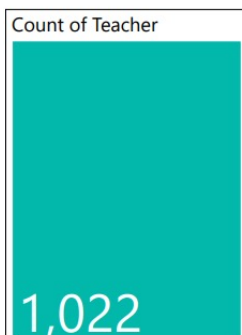

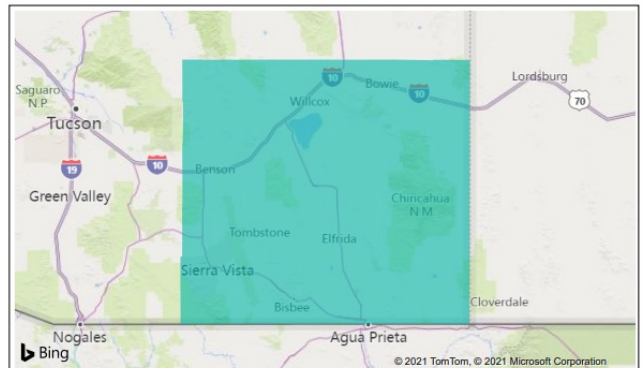

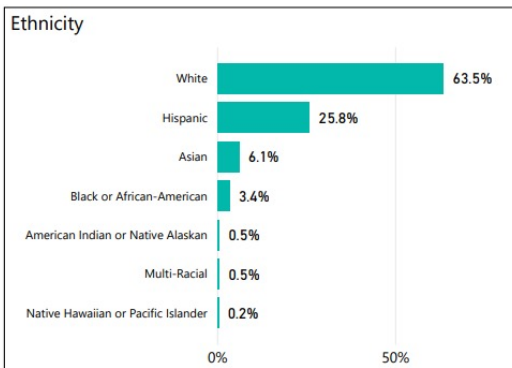

This report summarizes the Arizona teacher workforce in 2019-20 by county. It examines the teacher workforce by years of experience, gender, ethnicity, age and overall numbers. This is a companion report to *The 2020 Teacher Workforce* report which contains statewide data. All the data comes from the data submitted by LEAs through the Teacher Input Application (TIA) database maintained by ADE. Although there are some teachers missing from these sources, 96% of LEAs participate and it is the best information available on the teacher workforce.

This report is made possible through a partnership with the Mary Lou Fulton Teachers College, the ASU Helios Decision Center for Educational Excellence and the Arizona Department of Education. Funding from Helios Education Foundation and the Mary Lou Fulton Teachers College supported this work.
